HEALTH SCREENING

- At Drop-off your child will be screened with questions and child will have their temperature taken.
- Questions will be asked on Monday of each session, it is the family's responsibility to report any changes during the week.
- Questions:
 - Has your child been in close contact with a person who has COVID-19?
 - Does your child not feel well with symptoms consistent with COVID-19?
 - Have they had a cough, high temperature, shortness of breath, difficult breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, or new loss of smell or taste?
- If any answers are YES, they must go home and not attend camp.
- Site will have a non-contact thermometer, and temperature of the child will be taken. If the temperature is over 100.4 the child will be re-tested within another 15 minutes (we have discovered that some children have a high temperature in the AM, we have them sit and not be active.) If the second temperature is taken and still over 100.4 the child will have to leave camp and not return until temperature is under 100.4 for 72 hours.
